

## REPAIR AND RECONDITIONING

**G**et all of the quality at a fraction of the price of new with repaired or reconditioned equipment from American Industries. Our American Industries business is a leading provider of railcar repair and maintenance components. We serve railcar repair shops, rip tracks, private car owners, and Class 1 railroads throughout North America.

We offer new, secondhand gauged, and reconditioned parts that are fully certified and meet your needs quickly and within budgets. Each reconditioning station is fully equipped with burning, grinding, and multi-process welding equipment to assure your needs are fully met. Each includes AAR-approved gauges to assure AAR compliance.

Our bolster station is fully stocked with all necessary and supporting tools and equipment required to comply with M-214 reconditioning and bolster equipment. We dismount, inspect, and recondition wheel sets. Our computerized wheel lathes will reprofile your freight car wheel sets to AAR specifications.

Additionally, we mount new or reconditioned roller bearings with state-of-the-art equipment. We interchange usable secondhand repairable axles or roller bearings at competitive prices. Of course, we're AAR M-1003, M-212, M-214, and GII full service wheel shop certified, so quality is assured.

We use both truck and rail for shipments, which means that our shipping and receiving area will turn your orders quickly.

# Distribution and Reconditioning

## TURNKEY RECONDITIONING

**A**merican Industries is a leading provider of railcar reconditioned components. We also distribute many of the innovative products from A. Stucki Company such as unit-style brake beams, side bearings, column guide wear plates, friction castings, handbrakes and draft gears.

We recondition and/or distribute parts that are fully certified and meet your needs quickly and within budget. We provide a turnkey approach to the reconditioning of your railcar components.

We serve railcar repair shops as well as Class 1 and regional railroads throughout the Midwest and mountain states. Our centralized distribution center has positioned us to be the single supplier for virtually all A. Stucki products.

## OUR CERTIFICATIONS & QUALIFICATIONS

**A**t American Industries, we believe in improving our product quality, processes, and ultimately our customer satisfaction.
