

Benefits

- Holds brake shoes firmly both at idle as well as during braking operation
- Resists plastic deformation, providing a consistent holding force, extending the life of shoes and wheels
- Proper metallurgy eliminates key breakage during cold weather conditions
- Surface shot finish provides greater wear & fatigue resistance
- Surface shot finish removes defects and provides smooth edges
- Effective Traceability with stamped manufacturing date
- 100% inspected
- Immediate delivery!

Standard Packing
100 pieces per box, 10 boxes per pallet

Assured Proper Key Installation
Working with our Brake Beam's Key installation features, proper home key position is easy, assuring the right holding shoe force, while facilitating key removal at shoe replacement time

Features

- Spring hardened high strength steel
- Designed for any AAR approved brake beam
- Assembly and removal is more practical and effective when combined with our brake beam EasyKey™ feature
