

Benefits

- Extends Life of Brake Shoes, Wear Liners & Wheels
- EasyKey™ System for easy Key removal, reduces shoe replacement & train inspection efforts, stress & time!
- StopTab-SureHome assures proper support of Shoes & Keys
- Resistant to Fatigue and Vibration
- Effective traceability
- Immediate delivery!

Features

- Light weight, reduces injuries & fatigue
- Diagonally corrected
- Provides largest clearance to brake rigging & slack systems
- Brake Heads provide angle correction and EasyKey™ system
- Brake Heads are replaceable in the field using RC-kit
- Available capacities: 18,000 and 24,000 pounds
- Strongest beam available
- Exceeds Quality & Mechanical AAR Standards

Easy Key™ System:

Innovative concept facilitates key removal at each change of Brake Shoes quickly and safely! Stop tab ensures optimal HomeKey position.

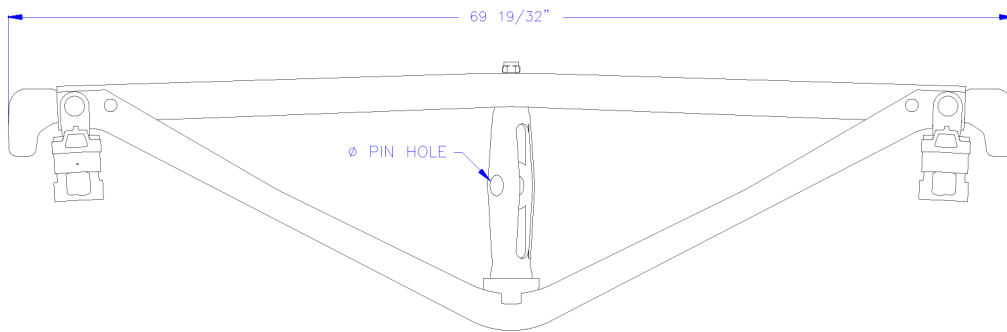

System without interferences:

Brake rigging-friendly design, provides maximum clearance for levers, bottom rods, bolsters, and axles.

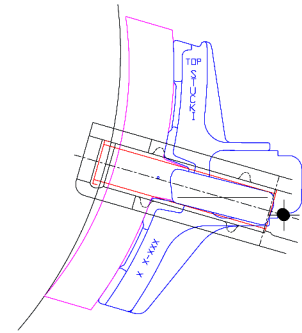

SELECTION CHART

Product Description	Side	Capacity (Pounds)	Pin Hole Diam.	Certificate
RCL Brake Beam (Patent No. US 8,889,388 B2)	Left	18000	1 1/8"	225
		24000	1 3/8"	224
	Right	18000	1 1/8"	225
		24000	1 3/8"	224
