

BRAKE BEAM WEAR LINER

Part Number: ASC-1696

FREIGHT CAR

Captive Spring System

FEATURES & BENEFITS

- Provides long lasting performance
- Hardened steel construction prevents premature aging and deformation
- Brake beam wear indentations are prevented for smooth brake applications and release
- Low coefficient of friction enables effective beam-ends slide for more uniform and powerful braking
- Better angle of attack of the brake shoes against the wheel, extending the life of both
- Surface shot finish offers greater wear & fatigue resistance, removing defects, burs with smooth edges
- Effective Traceability with stamped manufacturing date
- 100% inspected. Immediate delivery!

COST-EFFECTIVE SOLUTION

A. Stucki Company's Brake Beam Wear Liner offers a cost-effective solution for extending the life of your railcars. Made from wear-resistant, heat-treated high-strength steel, these liners shield your truck frame from damage while offering extended service life. Their simple application makes installation a breeze, reducing downtime and keeping your rail operations running smoothly.

Standard Packing

100 pieces per box, 10 boxes per pallet
