

BRAKE SHOE KEY

MULTI-CATEGORY PRODUCT

Stucki's Brake Shoe Key provides a consistent holding force, extending the life of shoes and wheels.

Assured Proper Key Installation

Working with our Brake Beam's Key position is easy, assuring the right holding shoe force, while facilitating key removal at shoe replacement time.

Standard Packing

100 pieces per box, 10 boxes per pallet

FEATURES & BENEFITS

- Holds brake shoes firmly both at idle as well as during braking operation
- Resists plastic deformation, providing a consistent holding force, extending the life of shoes and wheels
- Proper metallurgy eliminates key breakage during cold weather conditions
- Surface shot finish provides greater wear & fatigue resistance
- Surface shot finish removes defects and provides smooth edges
- Effective Traceability with stamped manufacturing date
- 100% inspected
- Spring hardened high strength steel
- Designed for any AAR approved brake beam
- Assembly and removal is more practical and effective when combined with our brake beam EasyKey™ feature
- Immediate delivery!
