

Engineering Excellence in Rail Solutions

For over 100 years, the A. Stucki Company has been a trusted leader in the rail industry, delivering precision-engineered components and systems that power rail cars, locomotives, and beyond. Our legacy is built on innovation, technical expertise, and a deep understanding of the complex demands of rail transportation.

From advanced parts manufacturing to comprehensive maintenance services, we help customers optimize performance, improve safety, and extend the life of their rail assets. Our commitment to quality and reliability is matched only by our dedication to building long-term partnerships that drive mutual success.

At A. Stucki, we don't just supply parts—we deliver performance that moves you forward.
