- Meets chemical/food grade service standards.
- Works with Salco's Lift Assist device.
- AAR Approval #: E-182114

AAR APPROVED

The AAR has established strict standards for the design, construction, and inspection of manway covers. These standards are designed to ensure that manway covers are safe and reliable. AAR standards require that manway covers be able to withstand a certain amount of pressure and that they also be leak-proof.
