- DOT pressure ratings from 75 PSI to 165 PSI available.
- Additional Teflon™ coating available.
- Rugged, low profile design.
- Patented design.
- AAR approved #E172101.

MADE IN AMERICA

For more than 60 years, Girard Equipment has been producing quality products for an ever-growing, ever-changing industry. Girard Equipment is one of America's leading manufacturers of Tank Trailer equipment and is recognized throughout the world as a superior choice when it comes to reliability, performance and trust.

Constructed from castings hand poured in the USA, these Stainless Steel or Teflon® lined/coated reclosing pressure vents safely and reliably relieve excess pressure that would otherwise create a hazardous condition in a tank car.
