

TANK CAR

**¾" Thermowell**

Part Number: MGM110TW6A

### FEATURES & BENEFITS

- Made from durable 316 Stainless Steel that is resistant to corrosion and abrasion.
- Thread on or otherwise welded in place for a leak-proof seal.
- Available in a variety of lengths and diameters to fit your specific needs.
- Used to monitor the temperature of a variety of hazardous and non-hazardous materials.
- Helps to prevent accidents and ensure the safety of the crew and the public.

### ENHANCING SAFETY

Thermowells are used to monitor the temperature of contents inside a rail car. This is important for safety reasons, as some hazardous materials can become unstable or dangerous if they are heated or cooled too much.

### PROTECTING COMMODITIES

Thermowells are also used to monitor the temperature of food and other perishable goods that are transported in tank cars.

Stainless Steel Thermowells are designed to withstand the harsh conditions of rail transport and provide accurate temperature measurement of a variety of hazardous and non-hazardous materials.
