

Outlet Gate Pan Gaskets

HOPPER CAR

Developed as a solution to customers' contamination, discoloration, and inadequate seal problems, field testing has proven Stucki's Outlet Gate Pan Gaskets superior in tensile strength and weatherability.

36 Bolt Hole Gate Gasket

Part Number: GG35

FEATURES & BENEFITS

- Provides an inside edge consistent with the gate and the car flange.
- Made from a specially formulated elastomeric vinyl comprised of food-grade raw materials.
- Has 100% weld penetration, resulting in superior strength in the mitered corners of the gasket.
- Easy to install and replace. (mounting bolt kits available).
- Accommodates all gate manufacturers' bolting patterns.
- In Plastic Pellet service, prevents pellet entrapment.

A COMPREHENSIVE SELECTION

A. Stucki Company offers a comprehensive selection of outlet gate pan gaskets designed to fit a wide range of freight railcar outlet gate manufacturers. Whether customers need gaskets for ACF, YSD, Keystone, Thrall/Edsco, Ellcon National, Youngstown/Fabco, Trinity, Pullman, Miner, Procor/Union Tank, Adipic Acid, or 30x30 configurations, Stucki has you covered.
