

Handrail Safety Guards

TANK CAR

Centered Handrail Safety Guard

Part Number: HSG47AL01

Designed with safety and durability in mind, Stucki's lightweight aluminum handrail safety guards offer unparalleled protection for personnel working atop tank car platforms.

FEATURES & BENEFITS

- Helps prevent falls and accidents
- Lightweight aluminum construction
- Polypropylene carrying strap
- Reflective strips increase visibility
- Installs quickly and easily using clevis pins
- Centered and offset designs available

EASY TO USE

Featuring an intuitive design, the guard can be effortlessly raised to allow convenient access to and from the platform, facilitating smooth transitions for operators. Whether it's routine maintenance, inspections, or loading/unloading operations, our handrail safety guard provides a reliable barrier against hazards while maintaining accessibility for personnel.

Constructed from high-quality materials, our safety guard is engineered to withstand the rigors of industrial environments, ensuring long-lasting performance and peace of mind for our customers.
